### MORE GREENFIELDS MILK

Now you can enjoy more of Greenfields milk with the two-litre bottles of Fresh Milk and High Calcium Low Fat. Greenfields milk is fresh and has high nutritional value. This is because its milk undergoes a single-pasteurisation process and has no additives, preservatives, hormones, milk solids and milk permeates.

Greenfields is also the only dairy farm with an integrated processing and packing facility in Southeast Asia. It has its own herd of 6,000 Holstein cows imported from Australia, and a team of veterinarians and nutritionists to take care of the cows and their diet. All these help shorten the processing time, allowing the milk to be quickly processed and delivered straight from the cows to your homes.

The two-litre bottles of Greenfields Fresh Milk and High Calcium Low Fat milk are available at Giant, Cold Storage and selected FairPrice outlets.

For details, visit [www.greenfieldsmilk.com](http://www.greenfieldsmilk.com).

### THE BENEFITS OF OLIVES

Feed your skin the goodness of olives with OLIVA forte Enchant. The health supplement is formulated with olive juice extracted from organically grown olives, which contains a high concentration of hydroxytyrosol.

A natural olive polyphenol, hydroxytyrosol is easily absorbed into the body to provide benefits, such as minimising the damaging effects of free radicals.

OLIVA forte Enchant is ideal for those with prematurely ageing skin as it boosts cell renewal and increases collagen production. It also improves skin moisture retention and reduces damage from sun exposure. The result? Youthful, supple and radiant skin.

It is available at Guardian, Watsons and OG. For details, visit [www.olivaforte.com](http://www.olivaforte.com) or [www.facebook.com/sg.olivaforte](http://www.facebook.com/sg.olivaforte).
