SINGAPORE: Some 200 Bishan residents soaked up the F1 race atmosphere in the heartlands at their Community Club on Saturday evening (Sep 20), catching all of the day's F1 action on a 300inch LED Wall Display Panel.

Some even put their driving skills to the test at race simulators, while others took their remote-controlled cars out for a spin. The kids were kept entertained with F1 themed drawing and colouring

contests, and sculpted balloon give-aways.

Organisers had hoped to bring the F1 experience to the heartlands and foster community cohesiveness through motorsport. Joining residents was Defence Minister Ng Eng Hen, who is also MP for Bishan-Toa Payoh GRC.
